Personal Profile

Senior IT project manager with 6+ years of managing projects, Prince2/Scrum master certification and in-depth experience with software development. I'm hard working, reliable and consider myself an effective problem-solver with strong leadership skills. My biggest strength is the ability to bridge the gap between technology "hows" and business "whats". Finalist of the Czech Project Manager of the Year 2015.

Latest Work Experience

Moneta Money Bank

IT line manager / Senior Project manager (1/2018-ongoing)

My first banking experience includes leading a dedicated agile team, which delivers end-to-end deposit banking products. Line management responsibility for a team of 5+ IT professionals and project management of another 20+ people.

O2 Czech Republic

Senior Project manager (1/2017-12/2017)

During my 1-year contract, I delivered two large projects with a significant impact in customer experience, mobile network performance management and cooperative transportation systems. The size of my teams exceeded 30+ people and total CAPEX reached 230+ mil CZK (\$10+ mil USD).

WebNaut.cz

IT project manager (8/2015-1/2017)

Coordinating several parallel e-commerce projects for the agency's clients. Responsible for technical analysis, pricing offer, defining business objectives and delivering a solution.

GS1 New Zealand

IT project manager (10/2014-6/2015)

Leading a multi-national team to redesign a large corporate website for an international company. The project had challenging circumstances (many stakeholders with conflicting interests, limited budget and strict time deadline). I negotiated for the work to be outsourced and hired a development team from overseas. This resulted in a more competitive offer and lowered the final project costs by 66%.

Project management skills

- Holder of Prince2 project management certificate
 - Effective management of project delivery within required quality, deadline and scope
 - Coordination with external suppliers (e.g. creating and managing RFP process)
 - Cooperation with internal software development team on project tasks and work flow
 - Communication with top management on project strategy
 - Performing change requests on a project to meet expectations
 - Connecting programming functions with underlying business needs
 - Periodic reporting to the project owner regarding project milestones
 - Experience with pricing/quoting of software development contracts
-

Technical skills

Web development:

- Highly experienced with HTML5, CSS3 and Javascript (DOM manipulation, events, API etc.)
- Experience with GIT, jQuery, Bootstrap, junior PHP/SQL, Agile methodology, automated test tools (Selenium) and open-source systems (WordPress, Prestashop etc.)

Other:

- Basic understanding of telco/mobile network technologies (BTS, RAN, PS/CS network)
- Practical know-how of IT infrastructure, integration platforms and automated testing
- Good knowledge of internal corporate systems: SAP, PM software (Atlassian, MS Sharepoint etc.)

Portfolio:

- A complete redesign of a large corporate website: www.gs1nz.org
- Tailored careers page: www.webnaut.cz/jobs

- Designing a small business website: www.frezie.cz, www.inper.academy, www.c-roads.cz, www.digipass.cz, www.postfestival.cz
 - Creation of a corporate website from ground up: www.rfid-pathfinder.org.nz
 - Personal websites: www.HollyMarshNZ.com and www.Rektorys.com
 - Consulting and content development for the NZ's Ministry of Education: arbs.nzcer.org.nz
 - Created and currently running my own online shop since 2010: www.motivacniknihy.cz
